A SECOND SHOCK WAS FELT BUT CONFIDENCE IS RESTORED

Vigorous Steps Taken to Restore San Francisco to Normal Conditions

ADDITIONAL LIST OF DEAD IS FURNISHED

New York's Relief Fund is Close to \$4,000,000—Withdrawal of Troops Followed by Operations of Looters
---Condition of Refugees at All Camps Continues to Improve.

Oakland, Calif., April 26.—Confidence, slow but sure, is gradually coming back to the people of San Francisco. Vigorous steps are being taken on all sides toward a restoration of the city to normal conditions. Nothing better since the disaster has been done that will bring about an improvement of the mental condition of the people than the withdrawal of the restrictions on entrance into the city from other bay cities. Thousands who were heretofore unable to go across the bay are availing themselves of the opportunity to visit the ruined places of business in anticipation of preparing for a resumption. The feeling of fear for further disaster is disappearing and hope that inspires the belief that the city will be resurrected as quickly as physical possibilities will permit is springing up in all quarters. The city is being rapidly cleared and as soon as the insurance companies decide definitely as to the action to be taken by them in the matter of adjusting the damages the work will be taken up with systematic thoroughness.

The work of restoring the trolley wires is being pushed with all possible speed. Several sections of debris is being taken from cellars and preparations are being made to construct temporary one story buildings. The board of public works has adopted new building laws. No one will be permitted to erect permanent a brick or stone structure. The blowing up of dangerous walls continues and before many days all the streets will be entirely safe. Disorders have become infrequent, the summary punishment of offenders having had a salutary effect. The condition of refugees at all camps continues to improve. All have sufficient food and water, and with the return of warm, sunny weather the suffering is minimized.

Food supplies are still pouring into the city from all over the country, but it will meet only the temporary demand. A much greater quantity than that now on hand will be required to absolutely insure a permanent supply. The exodus is dwindling.

The number of sick and injured at all hospitals is reported greatly reduced. Only a few deaths from injuries have resulted in the past 24 hours. Less attention is now being paid to slight tremors which are occurring every few hours.

LOOTERS BECOME ACTIVE.

Oakland, Cal., April 26.—Withdrawal of troops from the burned district in the section where Chinatown one stood has been followed by a tide of looters upon the ruins. Men and women by the hundreds at once began work in the hot ashes in search of loot. Some searchers met with great success. Several pieces of valuable china were found entirely intact. Costly bronzes and other metal work were uncovered. One woman found a piece of gold worth several hundred dollars. It is supposed to be coin which melted in the intense heat. Commercial banks are preparing to resume business in a preliminary way. Before they open their vaults it has been arranged to pay depositors not exceeding \$500 on accounts each bank had considerable sums transferred to their credit by correspondents in London, Paris and New York. These transfers will be made at that point. The form in procedure will be for a depositor to draw checks in the usual form. They will be endorsed by the cashiers or other officers of the bank and the customer add have it cashed at the mint. The Planing Mill Association reports an encouraging situation. Fifteen of the 39 mills escaped destruction. Two of the mills are now running.

Ugly stories are in circulation con-

cerning the conduct of some individuals among the regular troops. For the most part these soldiers have been highly praised but several of the guards on the reservation at Fort Mason are alleged to have made use of their position to compel the panic stricken refugees to give up money. It is charged that while some Chinamen were fleeing from the flames on their way to take a boat at the government wharf at Fort Mason for Oakland they were compelled to pay \$5 each to cross the reservation. Taking advantage of the plight in San Francisco, Oakland is making strenuous efforts to capture trade. A wealthy syndicate of wealthy men plans at once to reclaim 500 acres of tide lands near the Southern Pacific pier on the Oakland shore and construct wharves where big steamers can land. Plans for monster docks have already been drawn.

RELIEF FUND \$21,000,000.
New York, April 26.—The local relief fund this morning was close to \$4,000,000. Contributions continue to flow. Seven days since the catastrophe have averaged nearly \$3,000,000 each from all over the country, bringing the whole fund up to about \$21,000,000. Chicago's relief fund today reached \$780,000, or three quarters of the amount planned to be raised.

FIRST RELIEF TRAIN ARRIVES.

San Francisco, April 26.—The first government relief train arrived here at 9 o'clock last night. Heavy grades delayed the movement along the Southern Pacific.

All along the route the train met special refugee trains from the coast. On the trains are many well dressed people wearing jewels, but without money or change of raiment. Thomas McConnell, of Coshocton, O., and Harry Livingston, of Youngstown, O., are among the refugees going east.

ADDITIONAL LIST OF DEAD.

Washington, April 26.—The war department today received an additional list of dead at San Francisco from Major General Greely as follows:

Fort Mason, San Francisco, April 26.—The following are names of dead not previously reported: Catherine Browne, John Berg (or Day), Harry Chesebrough, Ah Sung, Emma Kitter, Herman Meyer, W. Myrke (Japanese), Mare Paris, James Bulos, J. Rankin, Ciro Rifech, Lewis Robinson (colored), Wm. Vall, George Walker, Young Won.

This does not increase the grand total. Investigations proceeding regarding those injured. Hope to furnish quite complete report on 26th. (Signed) GREELY.

TROOPS ARE OVERWORKED.

Washington, April 26.—General Greely again requests of the war department additional troops. He says: "The present force is overworked and inadequate to fully guard the interior of the city. The spirit and conduct of the officers and men have maintained is of the high standard of the American army. Estimates from various sources place the destitute at between 200,000 and a quarter of a million which leaves me but one soldier to every hundred destitute people, and a additional force would give only two to a hundred."

"EMERGENCY ORDERS."

Pittsburg, April 26.—Orders have been issued by the officials of the Carnegie Steel company making all contracts for structural and other steel material to be used in the reconstruction of San Francisco, "emergency orders," and giving them precedence over all other contracts. This order will apply to all branches of the United Steel corporation.

San Francisco, April 26.—Another earthquake shock was felt in this city and vicinity at 3:15 p. m. Wednesday.

It lasted nearly a minute and caused terror to the people. One woman, Anna Whitaker, 25, was killed by a falling chimney while at work in her kitchen. Walls of burned buildings which were standing Tuesday in weak condition were thrown down and frail buildings were considerably shaken up, but the damage done was slight. The shock was also felt in Oakland and Berkeley, but in these places it was very light and of brief duration.

Southern Pacific officials state that their estimate of the number of people who had left the city is 350,000. Of this number 10,000 or more have returned. Travel outward bound has been steadily falling off in volume. Following the example set by nearly all the business interests of the old San Francisco, members of the Jesuit order announced today that they intend to remain and they will at once rebuild both St. Ignatius college and cathedral.

W. A. Simonson, vice president of the National bank of New York, which has the largest financial connections in this city of any of the eastern banking institutions, has come to San Francisco as the personal representative of his bank. He made a cheering announcement to the effect that the National City will do all in its power to aid in the rebuilding of San Francisco. The institution for which he speaks is one of the strongest banks in the United States, having behind it the Standard Oil interests.

Almost all the bakeries in the unburned districts have opened and are selling bread at the regular price of five cents a loaf. There is no danger of a meat famine. Representatives of the Western Meat company in South San Francisco reported to the relief committee that there are now in the yards 1,500 cattle, 3,000 sheep and 500 hogs. More than 200 cattle are being killed and dressed daily, and sheep and hogs are put under the knife as soon as they arrive on the cars. The full quota of employees is at work.

With unwavering faith in the "Image of Heaven," twenty Chinamen gathered in one desolate spot in the ruins of Chinatown and worshiped in full compliance with the rites of their religion. In the ashes of their temple they knelt and silently offered their prayer. Prostrate in the smoldering wreckage before them was the charred trunk of the graven image that once held the altar in the temple. The fumes of fresh incense and sacred pink sticks curled skyward, and all dainties obtainable under the circumstances were spread in offering to the deity that no offense to that deity might bring a recurrence of the disaster. No detail was overlooked by the faithful Chinese, who pleaded for mercy in behalf of the 35,000 of their countrymen made homeless by the holocaust.

Mount Tacoma Extinct.

Tacoma, Wash., April 26.—The widely published report that Mount Tacoma (Rainier) has been in eruption, and the statements of Prof. Henry J. Cox, in charge of the United States bureau at Chicago, and of Dr. W. Holland of the Carnegie Institute at Pittsburgh, to the effect that the recent activity of Mount Tacoma, near Tacoma, Wash., may have had something to do with the recent earthquake in San Francisco, calls for an emphatic denial. Mount Tacoma is an extinct volcanic peak covered with snow and ice for 7,000 feet from its summit, in many places hundreds of feet thick. It has been as dead as an Egyptian mummy for thousands of years, if geological investigations and the conclusions of scientists are reliable.

To Pass Calamity Laws.

San Francisco, April 26.—At a general executive meeting, the committee drew up a message to Governor Pardee requesting a special session of the legislature. The feature of passing a general calamity law empowering the city to circulate enough bonds for the reconstruction of San Francisco was legally explained. The opinion of all was that by all means this session should be called and that the necessary calamity laws should be passed.

LAKE SHIPPING TO BE TIED UP

By Strike of 20,000 Longshoremen and Workers

MAY BE EFFECTIVE MAY 1

EVERY TRANSPORT INTEREST ON THE LAKES WILL BE AFFECTED

If the Strike Goes On, Not a Boat Will Leave Port on That Day.

Chicago, April 26.—Shipping on the Great Lakes is facing a general tie up May through a strike of 20,000 longshoremen and transport workers. The probability of a complete blockade at the opening of navigation is reported in Chicago to be growing hourly.

Practically every transport interest on the lakes will suffer seriously unless efforts being made by various carriers' association and lake unions to bring peace are successful. Chicago especially, will feel the loss in lumber and grain shipments. Cleveland and the Lake Superior ports will experience a stoppage in the ore and coal trade. Every port on the lakes will share in a tie up of general lake freight and passenger traffic. Holding the key to the threatening situation is the Lake Pilots' Union, which is standing firmly for recognition from the transportation companies. The pilots are backed by the powerful Longshoremen's Union, which comprises nearly all the loaders and boat hands from Duluth to Buffalo.

The latter organization proposes to precipitate a general strike if necessary to obtain the pilots' demands. This means that practically every man working on lake steamers is awaiting orders to quit work May 1. Not a boat will leave port on that day if the strike edict is issued from national headquarters at Detroit. Shipping will come to abrupt stand still, leaving millions of tons of freight on boats, docks or in warehouses.

In the harbor slips along the Chicago and Calumet rivers alone 2,200 loaders stand ready to strike. As many more grain shovellers at the elevators are preparing to join their brethren. The ore and steel handlers number nearly 10,000. In addition to these men, tug hands, firemen and others, water tenders and other employees are counted upon to quit. The transportation companies thus far have refused to deal with their pilots as a union.

STUDENTS USE KNIVES

Ravenna, April 26.—In a class flag scrimmage last night Juniors Darvynple, Leroy and Baldwin drew knives and slashed right and left. Frank Beatty received a gash in the back. Clifford Cross had a knife blade passed through his hand and Carl King was gashed in the neck. No arrests have yet been made.

ROCKEFELLER CONTRIBUTED \$100,000 STANDARD ADVANCED OIL PRICES

NEW YORK, April 26.—John D. Rockefeller contributed \$100,000 to the Prisco relief fund. Today the Standard advanced crude petroleum 3 cents per barrel in the east and 2 cents in the west. Heavy grade Kentucky oil was advanced 2 cents.

STRIKE SITUATION IS IMPROVING

In France Before the Government's Preparations to Quickly Crush the Disorder.

Paris, April 26.—The strike situation has improved before the government's military and police preparations to crush disorder, and public uneasiness has been considerably relieved. Alarmist reports, however, continue to circulate concerning what may possibly happen May 1. One report says that the Spanish and Swiss anarchists have succeeded in bringing forty bombs into Paris. The police are exercising extreme vigilance and are shadowing the chief agitators and watching the centers of disorder. The local military precautions include stationing of 2,000 troops in the basement of the Grand palace, where the national art salons are being held. Infantry and cavalry are also strongly posted at other important centers.

BLOW

For the Liquor Men Inflicted by Hillborn, Which Voted Dry in a Spirited Election.

Hillborn, O., April 26.—At the election under the local law Wednesday the anti saloon forces carried the day by a majority of 188 in a total of 1,232 votes. The excitement was intense, both sides being thoroughly organized with squads of workers appealing to all doubtful voters.

Soon after the polls opened Scott Slen, a former saloonkeeper, was arrested on a charge of purchasing votes and placed under \$1,000 bond for his appearance on Monday. W. Zimmerly was also arrested for illegal voting.

This is the third election held under the local law. Three years ago the town voted dry by a majority of 171 and a year ago there was a victory for the wet by 62. The town was wild with excitement last night, the bells of the churches pealing the news to the surrounding country.

WOMAN TO HANG.

Hackensack, N. J., April 26.—Miss Anna Valenti, the friend and jail companion of Antoinette Tolla, who on March 29, 1904, killed Mrs. Rosina Salacia in the latter's home at Lodi, was sentenced to death for the third time Wednesday by Judge Garrison of the Supreme court. Her execution is set for May 23, 1906.

GOV. PATTISON TOOK SUN BATH

Cincinnati, April 26.—For the first time since his illness, Governor Pattison was so much improved that late yesterday he left his bed and was allowed to sit some time on the porch of the hospital of Mr. Auburn, taking a sun bath. He expressed himself as greatly pleased and will be removed to his home at Milford in a few days. It is said.

Spain receives more sunshine than any other European country. The yearly average is 3,000 hours, while in England it is 1,700.

LEGAL ACTION AGAINST DOWIE

Filed in Chicago Which Threatens to Disrupt Zion City

RECEIVER MAY BE APPOINTED

IT IS ALLEGED THAT DOWIE PREFERRED CERTAIN CREDITORS OVER OTHERS

The Court Will First Determine Who Has the Proper Title to Property.

Chicago, April 26.—Legal action instituted here threatens to disrupt Zion City. Involuntary bankruptcy proceedings have been started against "Prophet" John Alexander Dowie individually before Judge K. M. Landis. Ransom F. Walker is one of the petitioning creditors. He is guardian of the estate of Ethel B. Foley, a minor, and conservator of William T. Foley. The claims involved amount to \$7,000. The petition alleges that on March 3, Dowie transferred property valued at \$1,200 to Margaret H. Fielder, and that on January 10 other property was transferred to James H. Hirsch, thus showing preference to these creditors over others, which is alleged to be a violation of the bankruptcy law. Dowie's liabilities are not actually known at this time. His assets are said to be about \$2,500,000. The court set the matter for hearing next Monday morning.

The filing of the Foley petition also places some knotty points of law before the court for an untangling. The Zion City property, estimated anywhere from \$15,000,000 to \$20,000,000, is now claimed by two factions of the church, and if the court steps in, one of the warmest contests the bankruptcy court has ever seen will develop.

Before a receiver is appointed on the petition in bankruptcy just filed, the United States court will endeavor to determine who has the proper title to the property.

Early this year, when Dowie was in Jamaica, where he went in search of health, he sent his power of attorney to General Overseer Willbur Glen Voliva. Under this power of attorney, when the break occurred a month ago between Voliva and Dowie, the latter's property was transferred by Voliva to Financial Manager Alexander Granger. The present status of the case is that Granger claims the property as agent of the Dowieites, while Dowie is contesting the transfer in the courts, and has sought an injunction restraining Voliva and Granger from interfering with him.

FAMOUS ENGINEER DEAD.

New York, April 26.—Brig. General Wellman Serrill, the famous engineer and builder of the Niagara suspension bridge and the Hoosic tunnel, died in this city yesterday. He was a native of England in 1826. He came to this city when four years old. General Serrill began his engineering career when 22. He was sent to the Illinois, where he surveyed the Niagara and Panama routes of the present day. In the Civil war he served with distinction. Besides seeing considerable fighting he worked out the plans suggested by General Gilmore for the capture of Charleston including the placing of the Swamp Angel battery.

WANT GORKY DEPORTED

New York, April 26.—There is real contention in the camp of Maxim Gorky's followers today. The worst has happened. The women's clubs have gone on the trail of the Russian author-patriot. They are demanding that he and the woman he introduced to the world be deported.

The explosion came at a meeting of the Women's Republican State Club, called to discuss socialism at Delmonico's. The topic of socialism was introduced and Gorky was substituted as the subject for discussion. "Should we not, as women, take some action against this man?" asked Mrs. R. M. Flint. "People of such character should not be allowed in this country. Of course, when he arrived it was not known how he was living, but he came here and expected to be received, and I think he should be deported. Gorky is the embodiment of socialism."

There are now 303 schools in Canada for Indians who number 107,627.

Crimpy Frazier is again in jail. It is said that Crimpy was taking some oil cans that did not belong to him. It is probable that the man had an idea the cans were the property of the Standard Oil Company and as Frazier is no friend of Rockefeller, he proceeded to gather the cans under his wing.

Moving Pictures.
The moving picture exhibition on South Third street changed the program Wednesday from "How San Francisco Was Destroyed" to the amusing and interesting views of "The Serenade" and "A Trip Through a State Mine." The views are clear and vivid, the first named subject being extremely amusing. Large crowds have packed the exhibition to witness the new views. The expert operator in charge of the machine, with the aid of "noise" effects, makes a highly entertaining show.

STAND SEVERE TESTS.
The great Chicago fire of 1871 burned three square miles of territory, left 100,000 people homeless, destroyed \$100,000,000 worth of property and ruined 100 insurance companies. The San Francisco disaster has devastated 10 square miles, destroyed the homes of 150,000 to 200,000 people and ruined property valued upwards of three hundred millions of dollars.

IN A HOT BED FUGITIVE LANDED

When He Jumped Over a High Board Fence to Escape the Pursuing Police Officer.

Another chapter was added to the life tragedies of James Click and his father-in-law, Samuel Sinsbaugh, when Sinsbaugh came to the mayor's office with his side of the story.

He said that he had good reasons for objecting to Nellie Sinsbaugh staying at the home of Mr. Click and that he wanted to take her home. He was in no way abusing the girl, but she did not want to go home and called upon Click for assistance.

Sinsbaugh claims that Click came out of the house with a revolver in his hand and threatened to shoot, and then assaulted him. Sinsbaugh bore good evidence that the assault was successful as his face was badly lacerated and scratched. He stated to the mayor that Click hit him in the back of the head with a pair of knuckles.

Click asked a passing hack driver to send an officer to his home and Officer Moore responded. He gave chase to Sinsbaugh and the man jumped over a high board fence and landed in the midst of a hot bed covered with several square yards of glass. The officer could think of nothing but a repetition of the Ericso horror and while he was trying to decide what had happened, Sinsbaugh gathered himself out of the fragments of glass and waded the canal and escaped. The fugitive stated to Mayor McCleery that he had done nothing to be arrested for and did not intend to spend the night in the lockup if he could help it.

SEEKING IS BELIEVING.

The Wadsworth Bros., Chico is a Long Havana Filler, Say J. W. Collins & Son, and They Prove It.

When a cigar salesman told Mr. R. F. Collins of J. W. Collins & Son, that it was not possible to sell a long Havana filler, such as they claim, the Wadsworth Bros., Chico is, for 50c, the reply was, "Well, it is an easy thing to see whether it can be done or not," and he took a Chico from his box and cut it open.

The filler was there—long, rich, silky Havana—just what was needed to make the good smoke that the Chico is. Soeling is believing, but with the Chico, smoking is better. Try one for yourself, all lovers of a good smoke, how fine a cigar can be sold for 50c. The best people in Newark, those who never used to smoke anything less than a 10c cigar, now buy the Chico at Collins & Son's for a nickel and get a better smoke for less money. A21-26-M1

Refugees at Chicago.
Chicago, April 26.—Mayor Dunne issued a proclamation setting aside next Saturday as San Francisco day, at which time funds for the earthquake sufferers will be solicited in a house-to-house canvass to be made by members of the police department. The Union and Northwestern stations here duplicated the scenes in the relief camps at San Francisco. Train loads of refugees poured into the city and were fed and generally provided for by the Chicago relief and aid society.

Boiler Wrecked Caged.
Santa Rosa, Cal., April 26.—An accident caused by the recent earthquake resulted in the death of three men at the Great Eastern quick silver mine. As the cage was being hoisted from the mine a giant boulder dislodged by the shaking earth fell down the shaft, wrecking the cage and killing the three occupants.

Mr. and Mrs. A. H. Pierson returned home Wednesday evening from Los Angeles Calif.

Dr. W. C. Rank, who has been making an extensive tour of Europe, is expected to arrive home about the 10th of May.

J. J. Danmer of West Locust street has received word from his son Charles in San Francisco stating that the family are now safe, and their home still standing.

Mr. Fred Metz, son of Mr. J. E. Metz, has resigned his position with the Pittsburg Plate Glass company at Ford City, Pa., to accept a position in the Cannon Glass works at Coshocton, as time keeper.

Dr. William Wallace, well known in Newark, is at present in San Francisco holding in the work of relief to the numberless sufferers. He is commissioning the Medical Food company to distribute \$5,000 worth of its goods for the benefit of the infants of the afflicted.

Don't fail to see Clyde Weber in trick and fancy skating at the Palace tonight.

IRON & TRADE REVIEW

Cleveland, O., April 26.—The Iron and Trade Review in its issue of today discusses editorially the effects of the San Francisco disaster upon the steel industry and states that predictions of immense tonnages of structural materials for the rebuilding of the city are to be discouraged.

Even if the work of rebuilding the city begins immediately on the extensive scale now planned, the structural requirements will not be so heavy but that they can readily be supplied by domestic mills. This belief is reflected in the opposition entered by manufacturers in the Pittsburgh district to the proposal that the tariff on structural material be suspended temporarily for the benefit of San Francisco.

In the case of the Baltimore fire, early estimates of enormous steel requirements were welcomed as affording relief to a stringently tight market. As it turned out, however, though steel was used practically exclusively in rebuilding, the tonnage placed in the market immediately following the disaster was only about one-fourth of the original estimates.

The new San Francisco will be a steel city, with a type of steel construction designed especially to resist seismic shocks. But the community is paralyzed, the property loss is enormous and but slowly covered by insurance, and current profits are largely cut off. The work of rebuilding will be distributed over a term of years and requirements of structural materials will thus tend to lose themselves in the general run of business.

All available information points to the fact that steel buildings withstood the shocks without great damage and that they suffered less severely from the fire than did buildings of other types.

The coal strike has resulted in the banking of another furnace in the anthracite region and others are expected to follow. A small furnace at Detroit is soon to go into blast. There is improved activity in pig iron, particularly in the East and the market is more firm except in northern Ohio, where certain interests have beaten down foundry quotations to \$16.75 furnace and even slightly lower.

Structural materials are also in strong demand. Some heavy building requirements in various parts of the country have been closed and railroads are buying large tonnages. For 25,000 steel cars which will take a great quantity of plates and the smaller boiler concerns are in the market.

The general condition of the industry is reflected in the report of the Steel corporation which shows net earnings for the last quarter of this year well in excess of \$26,500,000, the largest for any quarter in its history and a gain of \$12,000,000 over the corresponding period of last year. Unfilled orders on the corporation books are lightly more than 7,000,000 tons, an increase of 1,421,122 tons in the past year.

It was stated recently in the Reichstag with reference to German Navy gunboats that out of a total European population of 166 there were 171 gunboats, and that on every two gunboats there was a German officer. This meant that every German there was Germany \$7,500 a year. The speaker remarked that it would be cheaper to bring the German's home and give them pensions.

DELIGHTFUL MUSICALS

Given in Recital Hall, Granville, on Wednesday Evening by Miss Pearl Ferguson.

Miss Pearl Ferguson of the Conservatory of Music, Denison university, gave a finished recital program on Wednesday evening at Recital Hall, before a large and critical audience.

Miss Ferguson, accompanied by Miss Blum of the Conservatory, rendered her program in an almost faultless manner, her numbers being well chosen and highly pleasing to those in attendance. The singer's voice was clear, not rich, her breathing and tonation good, and the general style

ELLIS WILL TEST COUNTY OFFICERS BILL

Columbus, April 26.—Attorney-General Wade H. Ellis Wednesday filed suit in mandamus in the Supreme court against George G. Mulheara, sheriff of Cuyahoga county, to test the West-Williams county officers terms bill, especially that portion which relates to county commissioners. In this bill when it went through the Legislature there were two provisions regarding as to when the terms of these officials begin. One part says September and the other December. To determine which is which, it is sought to compel the sheriff to issue a proclamation for the election of a county commissioner to succeed Wm. F. Elrick, whose term is supposed to end before the coming November election. He holds that his term is extended so that it will not expire until December, 1908.

BIRTHPLACE OF PRESIDENT LINCOLN

Will be Made Into a National Park. Free to All—The Cost Will Be \$500,000.

Louisville, Ky., April 26.—Clarence Mackay and Robert Collier of New York, officials of the Lincoln Memorial Association, returned to Louisville last night, after spending the day at the birthplace of President Lincoln, in Larue county. After an inspection they announced that the sum of \$500,000 would be spent to improve the property, which will be converted into a national park.

Guy Lowell, the landscape artist of Boston, Mass., accompanied Messrs. Mackay and Collier on the inspection trip and made suggestions, which will be carried out in making the improvements. The tract contains 110 acres, and with its rolling surface is naturally adapted for park purposes.

"While it will be a national park in every sense of the word, it is not our purpose to turn it over to the United States Government," said Mr. Collier. He stated that the Lincoln Farm Association desired to supervise the care of the property, which would be free and open to the public at all times.

An effort will be made at once by the association to have the Illinois Central and Louisville and Nashville railroads extend their lines to the park. The anniversary of the birth of Lincoln in 1909 will be celebrated on the farm on a large scale and be made an affair of national importance. It is also the object of the association to make the park a common meeting place for the North and South.

VAINLY

The Wedding Guests Waited for the Groom, Who Claimed to Have Inherited \$1,000,000.

Sandusky, O., April 26.—The wedding of Miss Florence Tebbutt, daughter of R. S. Tebbutt, of this city, and Harry Howard, of Tampa, Fla., which was set for Wednesday, did not take place, the groom having left the city suddenly some time last night.

Howard came here some months ago and made the acquaintance of Miss Tebbutt, who recently graduated from the high school. He claimed to have inherited over \$1,000,000 from a recently deceased uncle in Tampa.

The Tebbutt home was prettily decorated, the guests had assembled and all was ready for the ceremony. The company waited in vain for the groom and it was finally learned that Howard had made no arrangements with Rev. A. N. Clayton of Grace church, as was supposed, for the wedding, and that he had made no effort to secure a marriage license. Believing that Howard had gone to Cleveland Mr. Tebbutt took the train for that city in an effort to locate him.

Miss Tebbutt is 19 years old, strikingly beautiful and very popular in social circles.

YACHTSMEN MEET AND FORM A CLUB

Columbus and Newark Men Join
Hands to Room Sailing on Buckeye Lake.

Large and representative was the gathering of yacht owners and others interested in sail and power boats at Buckeye Lake, held Tuesday evening at Columbus.

An organization, to be named later, was effected. Permanent officers elected were:

Commodore—L. A. Sackett of Columbus.

Vice Commodore—Edwin S. Browne, of Newark.

Rear Commodore—Albert Corradi of Columbus.

Secretary—Charles D. Lynch of Columbus.

Treasurer—James T. Haynes of Newark.

The above-named officers, with Dell Fisher of Buckeye Lake, H. M. Gates of Columbus and G. A. Sackett of Columbus, are to form a board of directors for control of the club.

The next meeting will be held Sunday, May 6, at Mr. W. C. Wells' cottage at Orchard Island, Buckeye Lake. It is expected that the meeting will be even more enthusiastic and interesting than the one Tuesday night, and all who were invited to attend the first meeting and were prevented from being present by various causes, will be expected to attend on May 6, when a good time is promised.

"GET OUT!" YELLED THE IRATE WOMAN

As She Chastened a Fair Bookkeeper
In the Buchtel Hotel—Landlord's Wife Seeks Divorce

Akron, O., April 26.—"You get out of here," exclaimed Mrs. Don A. Goodwin, wife of the proprietor of the Buchtel Hotel, Wednesday afternoon, and, producing a heavy riding whip, she struck Miss Della Haurly, aged 22, book-keeper, who was in the hotel office. Blows fell on the girl's head and shoulders. Miss Haurly turned and fled to the writing room. Mrs. Goodwin followed and delivered several more blows, then, seizing the girl, half dragged her to the front door and throw her down the steps. To the dozens of pedestrians and traveling men who saw the whipping Mrs. Goodwin turned excitedly and said that Miss Haurly had maintained improper relations with her husband for over a year.

"I just couldn't stand it any longer," she said. Mrs. Goodwin claims that a private detective reported to her that Goodwin and Miss Haurly have represented themselves to be man and wife at outside hotels. She says Goodwin purchased the girl diamond rings, and recently paid the funeral expenses for the burial of her grandfather. Goodwin has spent the night several times at the Haurly's humble home on a side street, Mrs. Goodwin claims. These things, she says, were all found out by the private detective. "I have positive proof of my husband having had improper relations with Miss Haurly," Mrs. Goodwin said later, "and I have filed a petition for a divorce and the custody of our two little girls, aged 8 and 6."

Miss Haurly said at her home that she would disprove all Mrs. Goodwin's claims. "She is only a jealous woman," said Miss Haurly, who is confined to her bed. "Do you suppose I could have been at all the places and done all the things she says I have with her husband and work every day? If Mr. Goodwin had been here he would not have tolerated my being used as I was."

Goodwin was formerly proprietor of a hotel at Bay City, Mich. He was president of the Akron Trotting Association, which ceased to exist when the anti pool selling law came in, and has a cottage at a nearby lake.

THE MEASUREMENTS PERFECT POLICEMAN

Are Those of John Logan Who Recently Passed Examination in New York.

New York, April 26.—The measurements of a perfect policeman have been shown in the examination of globe trotter, circus rider, soldier, ranchman and a member of the Panama police before he was 25 years old, John Francis Logan, of No. 83 Taylor street, Brooklyn. These measurements are as follows:

Chest, 41 inches.
Waist, 38 inches.
Height, 5 feet 9 inches.
Weight, 165 pounds stripped.
Calf, neck and biceps, 16 inches.
Thigh, 22 inches.
Reach, 72 inches.
Chest expansion, 6 inches.

Logan has decided that a policeman's life is the life for him, and in an examination for a position as a member of the Greater New York police force, has just received 100 per cent. That is, he is, so far as an examination can show, perfect.

Logan is the second man in the history of the department to receive a perfect per cent, which is remarkable when one considers the fact that about 30,000 applicants have been examined and only one other came within 15 per cent of the 100 mark.

Logan was born in Brooklyn. He enlisted in Troop K, Eighth United States Cavalry on July 10, 1898, and served three years in Cuba. He was slightly wounded four times. He fought at El Caney during the siege of Santiago, and obtained the rank of sergeant. He also served in the regular army at Ft. Riley, Kan. Upon receiving his discharge he signed with Colonel W. F. Cody and for two years toured Europe with the Wild West show.

Logan is an athlete and an advocate of physical culture. He is an old chum of "Scotty," the spectacular miner of Death Valley, and says that "Scotty" was with Buffalo Bill for two years. Logan took his examination for a position on the New York force on April 17. Policeman Harry Fuleher, of the Adams street station, Brooklyn, is said to be the only other applicant for a position on the Greater New York police force to receive 100 per cent.

METHODIST CONCERN SOUGHT BY MANY

Ten Cities Urge Church Commissioners to Grant Them the Big Consolidated Publishing House.

Columbus, April 26.—Sessions of the commissioners appointed by the general conference of the Methodist Episcopal church to determine the feasibility of merging the book manufacturing plants of the church in Cincinnati, Chicago and New York into one establishment, were held at the Iroquois hotel in Buffalo Wednesday. No action was taken upon the main propositions involved in the proposed merger and it was said that the commission might adjourn without deciding the matter. The sub-committee on the location of the plant may report for a day or two.

Representatives from a number of Ohio and other cities appeared before the committee and urged their respective claims. Columbus, Buffalo, Cleveland, Elyria, Mansfield, Delaware, Toledo, Detroit, Louisville and Niagara Falls are all seeking the publishing house.

Ohioans are making a big fight for the proposed plant. They have pointed out that this state is centrally located and has an additional advantage because one-tenth of all the Methodists in the United States live in Ohio.

Deafness Cannot be Cured.
By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure Deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube gets inflamed you have a running sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circular, free. F. J. CHENEY & CO., Toledo, O. Sold by Druggists. OHIO OPERATORS STANDING PAT

**PLEDGE THEMSELVES NOT TO
SIGN THE SCALE DEMAND
ED BY MINERS.**

Carnegie at Gambler—Man Kills a
Woman and Then Himself.
Ohio News.

Columbus, O., April 26.—At the largest attended meeting held since work in the mines was suspended, Ohio coal operators unanimously reaffirmed the stand which they took at Cleveland two weeks ago, and all pledged themselves not to sign the miners' scale on any condition, until another meeting is held. In other words, there will be no individual agreements. All or none will sign. A resolution to this effect was adopted, but no date for the next session was agreed upon. It being left entirely in the hands of the chairman, John H. Winder, president of the Sunday Creek company, to call the conference at his discretion.

Against Iron Company.
Cleveland, O., April 26.—Proceedings to oust the Vandoren Iron Works company of Cleveland from its charter and corporate rights in Ohio were begun in the circuit court of Cuyahoga county. A petition in quo warranto was filed by former State Senator Harrison, assistant in the attorney general's office. The petition avers that the Vandoren company is a member of the so-called bridge trust and has at divers times entered into a "conspiracy," combination, trust agreement and pooling arrangement in violation of the provisions of the Valentine anti-trust law.

Double Tragedy.
East Liverpool, O., April 26.—When George Smith, 30, a farmer, who lives at Williamsport, returned to his home he found his wife and his brother, Harry, dead in a bedroom of his house. Their heads had been partially blown off by shots from double-barreled shotguns, and two of these weapons lay on the floor near the bodies. The brains of the victims and portions of the flesh were scattered about the room. The nature of the wounds and the direction of the shots indicated that Harry had first shot the woman and then taken his own life.

Stanton Day at Kenyon.
Gambler, O., April 26.—Today was observed at Kenyon college, Gambler, as Stanton day in memory of Edwin M. Stanton, the war secretary of Lincoln's cabinet, who was a member of the Kenyon class of '36. A splendid oil portrait, presented to Kenyon by Colonel John J. McCook of New York, was unveiled in Rosse hall, and Andrew Carnegie, who gave \$60,000 to endow a chair of economics in memory of Stanton, delivered the principal address on the life and achievements of that statesman.

Board of Public Works Meets.
Dayton, O., April 26.—The state board of public works decided to improve the Miami and Erie canal from Dayton to Cincinnati, substituting concrete locks for the old ones. The appointment of canal officials was postponed until the next meeting of the board at Columbus, the second Tuesday in May. At that time six superintendents and 15 collectors will be named. The board will assume the duties and authorities of the state canal commission Saturday.

Incendiary Fire.
Cleveland, O., April 26.—The new residence of T. W. Fancher, assignee of the Citizens' Savings bank of Lorain, was destroyed by fire, supposed of incendiary origin, with a loss of \$10,000. The police are of the opinion that dissatisfied depositors of the bank caused the fire. Among them were many Hungarians and Italians.

Ohioans Caught in Quake.
Painesville, O., April 26.—Word has been received from San Jose that General Casement, who was in the wrecked Vendome hotel, suffered several broken ribs and bruises. Mrs. Casement and Mrs. Robert George, who were with him, were also injured. The general and Mrs. George were dug out of the debris.

Damaged By Fire.
Cincinnati, O., April 26.—The seven-story building of the Gibson Art company on Elm street suffered a loss of \$50,000 from fire. Destruction of fine art work and manufactured materials made up most of the damage, several smaller concerns in the building suffering small amounts.

Ill Health.
Elyria, O., April 26.—James O'Hearn, section foreman on the B. & O., killed himself as he lay in bed at his home. He had been despondent since the death of his brother about a month ago. He was taken sick at the funeral and has been confined to his home since that time.

Road Increases Capital Stock.
Cleveland, April 26.—At a meeting of the directors of the Lorain and West Virginia railroad held in this city it was decided to increase the capital stock of the road from \$10,000 to \$20,000,000. W. B. Whiting, secretary of the road, in a statement, declared that Joseph H. Ramsey will control the road.

O. N. G. Captain Returns.
Springfield, April 26.—Captain Walter Fulmer, who was declared yesterday to be missing, returned home last

night and was greatly surprised to learn that he had been suspected of leaving the city for good. He said that the rumor was probably started by some one who saw him start for Columbus, where he was called suddenly without having time to tell his family he was going away.

It was said by him Wednesday that he has settled up the bills against him and that there was absolutely no significance in his leaving at this time.

Death at Cambridge.
Cambridge, O., April 26.—Noah H. Decker, a well known and highly respected citizen, died at his home on Grant avenue Wednesday morning. He was a sufferer with a disease contracted during the war, although he had been confined to his bed less than a week.

Mr. Decker was about 76 years of age and is survived by a wife, one son, Calv Decker of Cambridge, and three daughters, Mrs. Clara Lemmon and Mrs. Caroline Moore of Zanesville, and Mrs. Rosa Mariatt of this city. Besides the members of the family three brothers, one of New Concord, a second of Norwich and a third living in Illinois, and two sisters, both of Norwich, are left to mourn his death.

He served three years in the Union army as a member of the 78th O. V. L. He was a good, Christian man, a member of the U. B. church, South Cambridge.

Wreck Averted.
Wellston, O., April 26.—A disastrous wreck was narrowly averted a few miles out of this city by the presence of mind of the engineer of the northbound ball train on the Portsmouth branch of the B. & O. The train was going at a high rate of speed when the engineer made the discovery that a bridge was burning. He, with the assistance of the train crew and passengers, soon extinguished the blaze before serious damage was done. How the structure became ignited is a mystery.

Bishop's Father is Ill.
Columbus, April 26.—Edward Hartley, father of Bishop James J. Hartley, is seriously ill at his home in this city. Last evening there were said to be doubts as to his recovery. Mr. Hartley is 80 years old and his illness comes from a complication due to advancing age. He has been retired for some years, but formerly was interested in the real estate business. He has resided in his present home for more than half a century.

Octogenarian Called Home.
Zanesville, O., April 26.—After suffering for the past few days from a stroke of paralysis, Mrs. Emily Haines died at the home of her daughter, Mrs. Cora White, on Hall avenue Wednesday afternoon at 2:30 o'clock. The deceased was 80 years of age at the time of her death and had resided in this city the greater part of her long and useful life.

The deceased was the widow of the late William Haines and was born at Wells Creek, in Coshocton county in 1826. She removed to this city with her parents when she was yet a small child. During her residence here Mrs. Haines had made hundreds of friends by her winning ways and strong Christian character who will sincerely mourn her death. The deceased is survived by two daughters.

EXPULSED
Were Women Who Made a Demonstration in the Commons.
London, April 26.—Discussion of James Keir Hardie's motion in favor of female suffrage led to an unusual scene in the house of commons, several suffragist women in the gallery making a demonstration by calling out "divide," "divide," thrusting through the grill a flag inscribed "vote for women," and cheering. The speaker immediately ordered the gallery cleared. The appearance of the police with an assistant deputy sergeant to remove the women caused a further commotion. William Redmond asked whether it was in accordance with decency that policemen should be called to expel women. After most voluble protest the demonstrators were removed, together with several innocent occupants of the gallery, who, however, were rescued by friends in the house.

DAY'S BUSINESS IN COURT HOUSE

In the case of George P. Webb, receiver, against Mary J. Lingafelter and others, the plaintiff has filed his answer and cross petition. For reply to the defense set up in the answer the plaintiff says that it is not true that Mary J. Lingafelter was employed as assistant secretary of the Homestead Building and Savings Company on the 13th day of March, 1883, in pursuance of a resolution of the Board of Directors. He says that it is not true that she continued to serve in that capacity until May 20, 1901. Plaintiff says that the company and he, as receiver, is not indebted to Mary J. Lingafelter in the sum claimed, or in any other sum whatever. Plaintiff denies that Mary J. Lingafelter performed any service for the company and denies that the same was worth \$75 per month or any other sum. For a second defense to the first and second causes of action in the cross petition plaintiff says that so much of the alleged account set forth in the cross petition as accrued prior to April 17, 1900, is barred by the statute of limitation of six years, which statute the plaintiff pleads as a complete bar to the first and second causes of action in the cross petition set forth. Plaintiff therefore asks that the first and second causes of action be dismissed and he asks judgment as prayed for Kibler & Montgomery, attorneys for the plaintiff.

Answer and Cross Petition.
In the case of Lavina Wilkin vs. John Snider, Silas M. Snider, administrator of the estate of John Snider, deceased, has filed his answer and cross petition. He admits that plaintiff was, on the 4th of October, 1900, in the possession and occupancy of the real estate described in the plaintiff's petition, as a tenant of John Snider, but denies each and every other allegation in the petition and says the same are untrue, and asks that he recover from plaintiff \$32.63 with interest from April 2, 1902, and for all other relief to which he may be entitled. Kibler & Montgomery, attorneys for the administrator.

Waives Summons.
In the case of Jabez Rhoadsback vs. Charles R. Bell, H. B. Ruster and William A. Ashbrook, waive the filing and serving of summons on them and enter their voluntary appearance.

Board of Visitors.
Heretofore the Common Pleas court has had the appointing of the Board of County Visitors, but by an act recently passed by the legislature the power of appointing members of this board has been conferred on the Probate court. Accordingly Probate Judge Brister has re-appointed the members of the old board, as follows:

Howard W. Howe, Granville, time expires April 30, 1907.
Mrs. Charles A. Metz, Newark, time expires April 30, 1907.
Mrs. L. P. Sisson, Newark, time expires April 30, 1908.
T. B. Fulton, Newark, term expires April 30, 1908.
Mrs. Clarence Larason, Newark, time expires April 30, 1909.
J. M. Crawford, Newark, time expires April 30, 1909.

Belle Irwin has been appointed administratrix of the estate of Albert C. Irwin, deceased. Bond \$100.

Transcripts Filed.
Transcripts from the mayor's office in the following cases have been filed with the clerk of the courts:

Ohio vs. Joseph Choon, bound over to the grand jury in the sum of \$100 on the charge of cutting with intent to wound.
Ohio vs. Harry Williams, charged with burglary and grand larceny, bound over to the grand jury in the sum of \$500.
Ohio vs. Thomas W. Shannon, bound over to the grand jury in the sum of \$500 on the charge of shooting at William Wehrle with intent to kill.

Marriage Licenses.

LEE REPORTS.

First Session of the Confederate Veterans' Reunion.

New Orleans, April 26.—In the heart of a city which has borne the brunt of battle and worn the weeds of mourning for its slain, the Confederacy of the south was revived again by those who cherish it for everything that it was intended to be and who will love it until they die for what it means to them and to the south. Tales of heroism, the sacrifice, the agony and the glory of the great days were told again to those who never weary of the story or who cheer and wept by turns. No reunion was ever held under fairer auspices and none ever showed greater promise of success. The first session saw the reunion formally launched upon its career. Gen. S. D. Lee, the commander in chief, Adjutant General Mickle and other officers of the organization presented their reports and General Lee delivered his formal address.

FOR UNEMPLOYED.

St. Petersburg City Council Decides to Begin Public Works.

St. Petersburg, April 26.—The municipal council, after listening to some heated speeches by orators of the workmen and to the advice of Professor Paul Milukoff and other Constitutional Democratic leaders, decided to begin public works amounting to \$1,500,000, and pending their initiation, to assign \$250,000 among those out of work, the number of whom are actually destitute at present, according to labor reports, is not over 20,000. Danger lurks in the fact that the improvement which may be begun immediately will employ less than 3,000 men and it will take weeks or even months to complete plans for bridges and other important work.

Americans Win at Athens.

Athens, Greece, April 26.—The final heat of the 100 metres swimming race in the Phalaron developed a brilliant contest. C. M. Daniels, New York Athletic club, set a furious pace and won slowing down in 1 minute, 13 seconds. The Fenian finals at the gymnastic school were marked by some feeling. The Italian, Pezzarano, retired and the Frenchman, Dillon Kavanaugh, was awarded first place, Carlmiller, German, second, and Count Hughes, French, third. The greatest excitement attended the running races in which the Americans highly distinguished themselves. The three preliminary heats of the 100 metre race were won by Americans, while the semi-finals in all three heats also were captured by them. The 800 metres race afforded magnificent sport, Americans winning two heats out of four. James D. Lightbody, Chicago university, who won the first heat, and Chas. J. Bacon, Irish American Athletic club, who was second in the same heat, ran a well judged race.

Mitchell at Wilkesbarre.
Wilkesbarre, Pa., April 26.—President Mitchell and the members of the anthracite scale committee of the United Mine Workers went into secret session at the Central Labor Union hall. After a session lasting nearly two hours, the committee adjourned. It was decided to refer all matters at issue to the sub-scale committee, which will report to the full committee. President Mitchell refused to make any statement as to what occurred during the meeting.

Report Startles the British.
London, April 26.—A dispatch from Aldershot gives the startling report that the first division of General French's army has been instructed to prepare to mobilize in view of serious developments in South Africa. Officials of the war office say they know nothing of the reported orders, and it is the idea that if there is any basis for the report, it refers to some movement of troops to strengthen the government in Egypt. The war office ordered a regiment of dragoons stationed at Belfast to proceed to Egypt.

OBITUARY

ROBERT DICKEN.

Mr. Robert Dicken, a well known resident of Licking county, died at his home four miles south of the city on Wednesday evening at 6 o'clock after an illness of about four months with tuberculosis. He was a son of Mr. O. W. Dicken, and is survived by his widow and two children, and three brothers and two sisters, being Jesse Dicken of Haysville, Homer and John of Newark, Mrs. W. D. Salsber and Mrs. George Brady of Outville, and a large number of friends who deeply mourn his death.

The funeral service will be held at home at 1 o'clock on Friday and the funeral services will be held at White Chapel, in Licking township. Burial will be made in Cedar Hill cemetery.

MRS. MARY LAWRENCE.

Mrs. Mary Lawrence died Tuesday afternoon at 3 o'clock at the home of her daughter, Mrs. Sam Patterson, 127 Elmwood avenue.

Mrs. Lawrence had for many years been a sufferer from locomotor ataxia and for the past five weeks had been growing weaker. Mrs. Lawrence was a daughter of Mr. Peter Graft and was born in this city September 30, 1858. She was a member of the Plymouth Congregational church. The funeral services will be held from the home of her daughter Friday afternoon at 2 o'clock. The Rev. T. L. Kiermaier will conduct the services.

MRS. ALMA H. ROBB.

Mrs. Alma H. Robb, wife of Dr. H. H. Robb of Hudson avenue, died at her home Thursday morning at 11 o'clock after a brief illness. Mrs. Robb had been in ill health for the greater part of the winter but was taken worse two weeks ago. She had been suffering from inflammatory rheumatism which resulted in meningitis inflammation which resulted in death.

Mrs. Robb was born October 21, 1863, and was therefore 43 years old. She was a member of the Episcopal church, where the funeral will be held Saturday at 10 a. m.

OBITUARY.

Mr. Augustine Housholder an aged and highly respected resident of Burlington township, died at his home Sunday night, April 22, at 10 o'clock. The deceased was born in Loudon county, Virginia, December 22, 1829, and moved to Ohio with his mother and four brothers in 1849 and settled in the above named township, where he resided until his death. He was aged 77 years and four months. He was united in marriage to Cordelia Patterson on March 25, 1856, and from this union were born four children, two daughters and two sons, being Ann M. Rowe, Albert E., Ada E. Frost of Croton and Prof. F. P. Housholder of Utica, who were all at his bedside at the time of his death. He united with the Christian church at Appleton in 1869, and has been a faithful and consistent member ever since. He is survived by his aged and afflicted companion, his four children, four grandchildren, one brother, Jonathan of Utica, and a large number of friends who deeply mourn his demise.

GO RIGHT AT IT.

Friends and Neighbors in Newark Will Show You How.

Get at the root of the trouble. Rubbing an aching back may relieve it.

But it won't cure it. You must reach the root of it—the kidneys.

Doan's Kidney Pills go right at it. Reach the cause; relieve the pain. They cure, too, so Newark people say.

M. B. Melick, driver of 51 W. Church St., Newark, O., says: "For a long time I was suffering from a constant sickening pain in the small of the back and in the hips. Any quick movement was followed by sharp, darting twinges that caught me suddenly and almost doubled me up. I suffered so from pains through the hips that at times I was almost laid up. Urinations and hot applications had little effect on it and I began using various medicines recommended for such troubles. I had little success until I got Doan's Kidney Pills, at Crayton's drug store. They were the only remedy that really found the right spot. It banished my troubles in time, and I have had no return of any symptom of kidney complaint since using it."

CARDINALS

Attend a Function Given By an Envoy to the Quirinal.

Rome, April 26.—For the first time since the fall of the temporal power, members of the college of cardinals attended a function given by a diplomat accredited to the quirinal. The occasion was a dinner given by Mr. Wate, the American ambassador to Italy, and Mrs. White, in honor of Archbishop Ireland and the cardinals who were guests of Vincenzo Vannutelli, Satolli, Mathieu and Martinelli. The presence of the four cardinals at Mr. Wate's table is regarded as an augury of approaching good feeling between the vatican and the quirinal.

FEDERAL ARMY ISSUING FOOD

Frisco Citizens' Committee Relieved of a Gigantic Task.

ALL NOW TURN TO BUSINESS

Municipal Government Establishes Scale of Prices For Important Commodities—Feeling Against State Militia Still Exists—Streetscars and Electric Lights Promised.

San Francisco, April 26.—The United States army now has full charge of the gigantic task of issuing food. This resulted from a meeting of the executive committee. With this most important duty delegated to the army, the citizens of San Francisco have turned their attention to the resumption of business. The municipal government has established a scale of prices for important commodities, food, clothing, etc., which is below that existing under normal conditions. Warning was given dealers that any effort to charge exorbitant prices would result in action by the authorities.

GENERAL A. W. GREELY.

His Soldiers Issue Food to Three Hundred Thousand Refugees.

Streetscars are promised for today and electric lights will be turned on in the evening. In front of every house there is a small improvised furnace or cookstove whereon the food is prepared.

The water problem is still a serious one. Hereafter and until the system has been entirely inspected and repaired, there is to be but one water "tap" for each block throughout the city.

The state militia has not been withdrawn, notwithstanding the requests from the mayor and from the citizens' executive committee of fifty. Governor Pardee has not yet met in conference with the executive committee nor with the heads of the military and civil authorities at Fort Mason. It is not known what he will do with regard to the state militia, but it may be said that the citizens of San Francisco would experience a feeling of relief if they were removed at once.

Two thousand people are being fed daily at St. Mary's cathedral on Van Ness avenue, a relief station organized by Rev. Father Hannigan and headed by him as chairman of the committee. This is perhaps the most systematically conducted station in the city. Thousands of people can be served in three hours. Distribution is made according to the number in each family. The committee has a complete directory of the fifty square blocks in the district and so perfect is the system that there is no duplicating and no wrangling.

State Insurance Commissioner Wolfe announced that nearly all the large insurance companies would be able to make satisfactory adjustments of the losses caused by the San Francisco fire. Commissioner Wolfe says he hopes the authorities of San Francisco will now grant the hitherto unanswered appeal of the fire insurance companies for an auxiliary salt water system on Twin Peaks, one of the highest points on the range of the hills back of San Francisco. He suggests that wide streets be laid in rebuilding the city.

Hundred Firemen Missing.

San Francisco, April 26.—The losses of the fire department are considerable compared to the great damage sustained in other departments of the municipality. As far as known there have been but three deaths and one injured. The apparatus of the department, while damaged, is still intact. Nineteen companies, however, have been put out of commission and many of them will be disbanded. At a meeting of the fire commissioners, it was reported by Chief Dougherty that, excluding the dead and injured, there are about 160 members of the department missing. It is believed, however, that these men have been separated from their companies and will rejoin them as quickly as they can.

PARENTS SURPRISED AT THE NEWS

OF THOMAS CULLINAN'S FAILURE TO MARRY MISS BOGARDES.

They Never Knew the Young Man Was Engaged to the Columbus Young Woman.

The publication of the item concerning the failure of Mr. Thomas Cullinan, a well known young man in his city, to marry Miss Theodora Bogardus, daughter of Mr. and Mrs. S. L. Bogardus, of 1286 Engler street, Columbus, on Tuesday night, after the wedding feast had been prepared and the guests assembled, caused quite a sensation here. It had been announced that Mr. James Cullinan, who is employed in the Russell picture store on High street, was to have been best man at the wedding. The Advocate called at the home of Mr. Cullinan's parents, on Eastern avenue, this morning and was informed that they knew nothing regarding the matter, and that no one was more surprised at the news than they were. They never having been apprised of the contemplated marriage. Mrs. Cullinan is not ill as was reported.

STIFF FINE WAS GIVEN WILLIAMS

PLEADED GUILTY TO ASSAULT ON LABORER AT GLASS FACTORY.

Expected a Light Fine But Got \$50 and Costs and a Jail Sentence to Boot.

Mayor McHenry is showing no mercy on the men who are arraigned before him on charges of assaulting the foreigners of the city. This fact was illustrated in police court Thursday morning when Frank Williams, an apprentice glass blower, was fined \$50 and costs for striking a helper at the Everett Glass factory.

The assault occurred at the factory Wednesday night while men were at work. Williams was using a bucket of water in his work and the foreigner, whose name was not known by the complainant, was told not to use the same bucket. The foreigner did not obey the command, and it is claimed that Williams struck him with his fist. A fight followed in which Williams claims the foreigner struck him on the foot with a bottle. The arresting officer stated that Williams knocked the man down and kicked him several times.

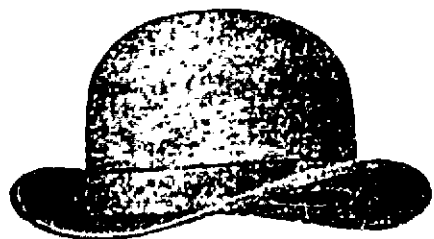

When first arraigned Williams pleaded not guilty and asked for a trial. He then changed his mind and decided to plead guilty, but gasped for breath when the court said \$50 and costs, and ordered him to the county jail until settlement was made. He expected a light fine after pleading guilty, but was fooled. There has been some considerable complaint from the employers who say that the foreign laborers are abused and they want them protected. The mayor is in sympathy with their demands and deals out severe punishment for the offense.

SON BURYING WIFE AT TIME MOTHER DIES

Zanesville, April 26.—As the funeral cortege bearing the body of Mrs. William Taylor was wending its way to the cemetery in Fultonham yesterday death laid claim to another member of this same family in the calling of Mrs. Mary Taylor, mother of William Taylor and wife of former Justice of the Peace J. O. Taylor. This doubly bereaved family has the heartfelt sympathy of legions of friends in and about Fultonham.

The elder Mrs. Taylor was 88 years of age. She was well known and loved by all who bore her acquaintance. Death was not altogether unexpected, for her advanced years had brought with them infirmities.

Those who survive Mrs. Taylor besides her husband and the bereaved son that has just buried his wife, are two other sons, Israel and Matthew Taylor, both of Fultonham.

Funeral services will be held Friday afternoon from the Fultonham Baptist church, conducted by Rev. Mr. Marks, pastor of the church. Interment will be made in the church cemetery.

BETHEL.

Farmers of this vicinity are busy plowing and seeding.

Dr. J. W. Maxwell spent Sunday and Sunday night at the home of S. A. Grandstaff. The doctor secured a fine coop of barred Plymouth Rock chickens during his stay here Monday and expects to embark in the poultry business as a side issue.

WERE INTRODUCED THROUGH THE MAIL

Zanesville, April 26.—Miss Agnes Meets of this city and Dr. G. S. Armstrong of Spokane, Wash., were married here Wednesday, and following the ceremony the bridal couple left almost immediately for Spokane, where they will reside. Neither Dr. Armstrong nor his bride had ever seen each other until Wednesday of last week.

Dr. Armstrong has an extensive practice in Spokane and it was while treating a patient at one of the hospitals there about two years ago that he became quite intimately acquainted with the nurse who was assisting him. During the course of one of their conversations the nurse remarked to him that she had a very dear friend in Zanesville, etc., and the result was that Miss Meets and the doctor were introduced to each other by letter. They kept up a correspondence and finally decided to get married if agreeable after each had seen the other and they had become acquainted. Accordingly, Dr. Armstrong came to this city and met his bride, one week ago.

MINERS CONVENTION WILL BE CALLED

Wilkesbarre, April 26.—The general scale committee decided this morning to issue a call for a tri-state convention at Scranton next Thursday. President Mitchell indicated that a counter proposition to the operators would be sent them this afternoon, and that they be requested to make an early reply so that the convention might set on the answer Thursday.

SCALE COMMITTEE IN SESSION TODAY.

Wilkesbarre, Pa., April 26.—The miners' scale committee met this morning to complete the last touches to the counter-proposition to the operators, which the miners say will avert a strike because of its radical modifications from the original demands. The terms of this latest proposition containing a synopsis of the counter-proposition or the complete document sent to the operators will probably be made public.

INCREASE IN STATE'S EXPENSES

Of Over a Million Dollars Authorized by the Last Legislature—Alkin Bill Will Pay.

Columbus, O., April 26.—Auditor of State Guilbert yesterday completed a comparative statement of the appropriations made by the Seventy-seventh and the Seventy-sixth General Assemblies, showing that the former increased the expenses of the state government for a total of \$1,278,102.26. The auditor states that he believes there will be revenues sufficient to cover the increase, but even so there is a surplus in the treasury of almost \$4,000,000.

The detailed statement of the appropriations made by the recent legislature is as follows:

General bill for 1907	6,229,861 00

Grand total for 1906 and 1907 \$12,910,089 20

The comparative statement shows that the General Assembly just adjourned appropriated a total for 1906 and 1907 of \$12,910,089.20 and the preceding legislature for 1904 and 1905, \$12,190,106.91, making the increase \$712,622.26. Of the total amount of the appropriations of the Seventy-sixth General Assembly, Governor Herick vetoed items amounting to a total of \$567,180, leaving an actual appropriation of \$11,632,966.91, and bringing the total increase of the recent legislature in amounts appropriated for 1906 and 1907 over that appropriated for 1904 and 1905 up to \$1,278,102.26. By the tax anticipated from the Alkin liquor tax bill the state officials hope to have a sufficient amount to run the state government without touching the surplus.

INDUSTRY

Of the American Hen Lauded in the House—Senate Still Busy With the Indian Bill.

Washington, April 26.—The ears of the American farmer must have burned Wednesday because of the eulogies and tributes to his untiring energy, his devotion and his patriotism which were paid by members of the House during the consideration of the agricultural appropriation bill. Next to the achievements of the American farmer the American hen came in for unstinted praise for her industry and her usefulness, her champion being Mr. Dawson (Iowa), who contributed a thoughtful speech to the literature of the farm.

Mr. Grossvenor (Ohio) began the general debate by addressing the House on the subject of ship subsidy. He said that the time for encouragement so far as the bill was concerned, was past—the time for assistance was now at hand.

In his judgment the whaling and deepening of harbors along the coasts of the United States had injured to the benefit of the foreign ship builders, so that ships of large tonnage could reach the ports of this country.

The President's message recommending an appropriation of \$300,000 for Mare Island Navy Yard was referred to the committee on appropriations. Without reaching an agreement as to the limit of general debates on the agriculture bill it went over until today.

The Senate again spent most of the day discussing the various provisions of the Indian appropriation bill, but did not conclude the consideration of that measure.

Mr. Tillman made an effort to have a day fixed for a vote on the railroad bill, but was again unsuccessful. Mr. Spooner gave notice of a speech today on the bill and Mr. Clark of Arkansas for a speech on Friday on the same question.

FALL CAUSES LAWYER'S DEATH

Famous Zanesville Barrister Thomas J. McDermott, Died of Concussion of the Brain.

Zanesville, April 26.—After struggling since Monday morning from a concussion of the brain, as the result of a fall sustained while going to his room on Orchard street, Hon. Thomas James McDermott, aged 47 years, passed peacefully away Wednesday evening at 6:35 o'clock at the home of Mrs. M. Woodworth, where he lived. His two brothers, Frank and Charles McDermott, together with Dr. H. T. Sutton, were at his bedside at the time death came.

Dr. Sutton has been a bosom friend of the deceased for many years past and was a faithful watcher at the bedside from the time of the fall until death relieved the patient of his suffering. The stricken man was unconscious from the time of the fall until the sad end last evening and will arrive in the city some time Friday.

Hon. Thomas James McDermott was born in Stockport in August, 1858. When but a young lad he left his parents, Mr. and Mrs. John McDermott, and journeyed to the home of his grandparents, Mr. and Mrs. McGuigan, of York, Pa. Here he received his early education and from the time he entered into his school duties he showed the exceptional ability which marked his whole career. After remaining there for some time he again returned to his home at Stockport, but soon left for Cincinnati, where he entered the Cincinnati Law school, graduating from this institution in the spring of 1875.

At this time a diploma from this noted law school admitted the holder to the practice of law in this state. However, Mr. McDermott was not of age at the time of his graduation and was forced to wait until the following August before he started his law career. He started his law practice in McConnellsville, entering the law firm of Foult & Stanbery. The senior member of the noted firm died about 10 years ago.

PRISON WON'T BE MOVED VERY SOON

Blunder Discovered in Resolution Fixing the Commission to Find a New Site.

Columbus, April 26.—Governor Pattison, it was said yesterday, will be in no hurry to name the penitentiary commission created by the Howe resolution, and authorized to find a site for a new penitentiary.

If the governor should wait as long as two years, he thereby would not delay the work the commission is to do. This may sound paradoxical. But in fact it has been ascertained that Senator Ward made a serious blunder in drafting the resolution. It provided that the commission was to consist of six members, but that it should not organize and go to work until its members had been confirmed by the Senate.

If the commissioners should be appointed now they could not be confirmed until the next session of the legislature. Therefore the commission could not act or spend a penny for the next two years.

Nor could this blunder have been avoided if the governor had been on duty. The resolution was rushed through two days before adjournment and reached the governor's office the last day. There was no time then to have secured a confirmation if the governor had acted.

FOUND OLD LADY

Who Claims to be 105 Years Old at the Interurban Station Wednesday Night.

A holloman found an old lady on the Interurban station Wednesday afternoon who appeared to be lost. They called the township trustee, and they in turn called the Indian director. Captain Smith took her on the car to Granville and from there to the infirmary. She gave her name as Emaline Albert, aged 105 years, and possessed all her faculties, only a slight defect in hearing. She was born in Maryland March 22, 1801.
